Education also involves the practice of sports. Above, residents of “La Case des Enfants” in full demonstration of Nabundo attack and defense techniques. Miss N’Goran N’dri Emmanuella, 14 and Miss Akmel Andreas both residents of “La Case des Enfants” are preparing for the African Nations Championship.

Children Of Africa Foundation does not skimp on any means to contribute to the Happiness of children in Côte d’Ivoire.
The Foundation Through Images:

The joy to bring happiness to toddlers, a mission of Children Of Africa Foundation.

Contribute to the happiness of children, a challenge for the future.

A schoolboy from the “Dominique Ouattara” Kindergarten of Mankono quite happy to try the new swing offered by the Foundation.
Since the accession of her husband to the Supreme Magistracy Mrs. Dominique Ouattara has given up all her corporate activities as Chief Executive Officer to serve her citizens.

Holding a BA in Economics obtained in 1972, a University Diploma of Languages taken, after two years specializing in Economics, in 1975 and a property Administrator Degree in 1987 and a Diploma in Real Estate Expertise in 1989, Mrs. Dominique Ouattara led a distinguished career, while devoting herself to her first vocation, namely the implementation of charitable actions in favor of vulnerable populations.

Indeed, in 1979, she created the International AICI Real Estate Group, of which she is the CEO and which is established in several European and African cities.

In 1996 she acquired the Jacques Dessanges brand in the United States and became then Chief Executive Officer of the "French Beauty Services" company which included the franchises and hairdressing schools in the United States, as well as hairdressing business and beauty institutes in New York and Washington.

Alongside his brilliant professional career, since 1980, Mrs. Dominique Ouattara is a great help for disadvantaged populations of Côte d’Ivoire, through the social actions she undertakes around the country. These allow her to determine the extent of the needs of the populations. Thus, in 1998 she formalizes her social commitment by creating Children of Africa Foundation. It campaigns for the well-being of vulnerable children of Africa, and mobilizes more and more people around this noble cause. She asked her friend, Princess Ira von Fürstenberg, to be the godmother of the Foundation and to help her raise necessary funds for its humanitarian actions. Her struggle is approved, donors support her and volunteers commit themselves, allowing thus Children of Africa Foundation to operate in eleven African countries in addition to Côte d’Ivoire.
Dear Friends of the Foundation,
Very Dear Donors,

We can never thank you enough for your generosity and your support to Children of Africa Foundation. Without your help, social projects that we implement, would never have been achieved.
During 2015, we have once more succeeded in bringing back smile to thousands of children. We have built and renovated schools, created multimedia rooms and helped many underprivileged children have access to reading. Elsewhere, the Christmas Tree held at the Presidential Palace was also a real success, as well as Christmas trees extended throughout the country.

Meanwhile, we have also been able to make people, in need, consult and screened, during our health caravans.

Last year was also marked by the progress of the construction and equipment works of the Mother-Child Hospital of Bingerville. We look forward to seeing it to be operational, to accommodate expectant mothers and their children.

With your help, Children of Africa Foundation will continue to inspire children and relieve families. In 2016, the new project of the Foundation will consist in constructing and equipping the three reception centers for children in distress in the cities of Bouake, Ferkessédougou, and Soubré.

While waiting for the launch of this other big project, I know I can count on your continued support to enable us to provide « Another future for the children of Africa. ».

Dominique OUATTARA
In 2015, Children of Africa Foundation has generously intensified its actions on the whole Ivorian territory, namely, in the three priority sectors of intervention which are: health, education and the social.
...and in 10 other countries of Africa

The Actions of 2015
Health Sector

Given that health is an essential factor for the welfare of populations, children of Africa Foundation sets out on its mission to help populations benefit from adequate health care.

Social Sector

The Foundation fights against poverty, by sustaining populations in their initiatives for community development. It particularly focuses on the promotion of women’s entrepreneurship, because empowered women are more likely to ensure care for their children.

Education Sector

The mission of children of Africa Foundation is to provide children with learning facilities which will open the gates for knowledge acquisition and skills to shape their future.

Subsidized Centers

Several reception centers for vulnerable children are subsidized by Children of Africa Foundation. The Foundation has its own reception center, called “La Case des Enfants” (The Hut of Children) in Abidjan – Plateau.
The Elephants present the African Football Cup of Nations to the residents of The Hut of Children

The Elephants of Cote d’Ivoire have shown, the Trophée of African Football Cup of Nations 2015 (CAN 2015) to the residents of The Hut of Children, on Tuesday 24th 2015 at the stadium of Bingerville’s Orphanage.

The Hut of Children is the reception center of Children of Africa Foundation which since 1998, has been fully taking care of almost 60 orphans, mistreated streets children. During the year 2015, some wood joinery, plumbing and tiling works for children’s dormitories and the shower room have been carried out. The external paintings of all the buildings and fences have been restored.

The Hut of Children is taking new colors
The activities of the hut children in 2015

Several sport, artistic and entertaining activities have enabled children to acquire cognitive, physical and social fitness or skills.

Some Excellence Awards for Children.

As usual, by the end of school year, a party is organized to congratulate and reward the children of the Hut for their effort, and encourage them to do better the following year. Thus 9 schoolchildren of CM2 (6th grade) have been rewarded and have received some presents for having passed their Primary School Certificate. Many of them have been the first of their different classes. Our brilliant student of 3ème (4th grade in secondary school) has passed his secondary school certificate, and has got admission in 2nd c. All the same our student of 1ere (2nd grade of high school) has passed admission in Terminale D. Certain children have never been to school before entering into the Hut. Today, they have catch up with their delay and are among our best students.

The Residents on the Winner’s Platform

Sports contribute to the balance of the young residents of the Hut and teach them discipline, the respect of others and the necessary assurance to a perfect thriving. Officially registered to Nambo Federation of Côte d’Ivoire, the club of the Hut has taken part in the Nambodo second edition of the national cup competition on May 16th, 2015 at the “Palais des sports” of Treicheville. During this competition, the children of the Hut have won the Top Team Award. Besides, 2 young girls of the Hut have represented Cote d’Ivoire in their category, at the African Nambudo Cup of Nations in Yaoundé, Cameroon, which took place from 19th to 24th August, 2015. They have won, by themselves, 6 Silver medals, in addition to the congratulation of the jury.

A multidisciplinary team to train the children of the Hut.

It is a team of eight people who train our dear children. Certain trainers have started as benevolent and have become since then, special educators. Their experience and competences have made center, a referential of quality in orphans or street children training. The team has been reinforced in 2013, with some religious members of the congregation “Notre Dame de la Paix” which is bringing a complementary spiritual dimension to education and pedagogy.
The Major Stakes of our Actions in Health Sector

Children of Africa Foundation focuses its actions on prevention, and of wide scale. Thus, some vaccination campaigns, ophthalmological caravans, screening and deworming campaigns are regularly organized in Cote d’Ivoire. The Foundation also proceeds to the reinforcement of the capacities of some health facilities.

Typology of the actions carried

- Donation of materials to hospitals
- Immunization campaigns
- Ophthalmological caravans
- Donation of drugs and materials to sanitary structures
- Systematic deworming
- Surgery missions
- Individual Support
Mrs. Dominique OUATTARA, the Founding-President Children of Africa has chaired the General constitutive assembly of the Association for the management of the Mother-Child Hospital of Bingerville on 13th May 2015, at the headquarters of the Foundation.

On this occasion, the founding members have unanimously adopted the organic texts and regulations. Then, a Board of Directors of 12 members have been set up.

It is composed of Mrs. Dominique OUATTARA’s Children of Africa Foundation, the Government of COTE D’IVOIRE, the “Association la Chaîne de l’Espoir” and personalities.
Signing of a convention between The State of Cote d’Ivoire and Children of Africa Foundation

Côte d’Ivoire

To enable them to better insert themselves in school life

In the framework of the construction of the Mother-Child Hospital of Bingerville, a convention has been signed between the State of Cote d’Ivoire and Children of Africa Foundation on June 11th, 2015, at the Prime Minister’s Office.

After the signing of the convention, the president of Children of Africa Foundation has expressed her joy. “I’m happy and particularly moved that this convention is signed. It materializes the agreement between the State of Cote d’Ivoire and Children of Africa Foundation, and the willpower to assist us in this so important project for the populations of Côte d’Ivoire, namely women and children.”
The President of Children of Africa Foundation has equipped the infirmary of Félix Houphouet-Boigny University on Thursday 19th, February 2015, at University Félix Houphouet-Boigny of Cocody.

On this occasion, Mrs. OUATTARA has also offered some donations to students with disabilities, in order to allow them insert themselves more easily in their daily school life.

Key Figures:

- Donation of biomedical material to reinforce the technical platform of the Félix Houphouet-Boigny University’s Infirmary.

- Overall value of the financial envelope: 21,320,000 FCFA
- 51 locations involved
- 153 Jerseys kits
Christmas Trees 2015

Côte d’Ivoire
Children of Africa makes 3000 children live the magic of Christmas

According to Mrs. Dominique OUATTARA, the aim of the organization of the Christmas Tree in the realms of the Presidency is to allow children to familiarize themselves with the Institutions of the Republic. She also rejoiced for the fact that this celebration gives the opportunity to children from different backgrounds and all social walks to meet and live together the magic of Christmas.

On behalf of all the children, little Ahissatou Fahissatou, student in the 6 form at Abouakro 1 Public Primary School in the South-Comoé, thanked Dominique OUATTARA for her kindness and for the many and various gifts offered to the kids.

Key Figures:

- 3,000 children coming from the whole District of Abidjan, the area of the South-Comoé and from 16 NGOs and child care structures have celebrated Christmas on Saturday, December 20th, 2015 at the Presidential Palace of Plateau.

- Games, performances of famous artists, Bouldegum clowns’ shows, jugglers and puppets and the arrival of Santa Claus by helicopter added a magical air to this celebration.
Subsidized Centres

Key stakes of our actions for the subsidized centers

The Foundation intervenes in 11 countries of Africa by subsidizing centres which are intended firstly to support children in the health, education and social sectors.

Typology of actions undertaken

- Care Centre for street children
- Health centres in rural areas
- Vicational training centers for women living in rural areas
The Keoogo Centre supports the juvenile mothers
Burkina Faso

Face to of this category of children, whose rights are violated, Keoogo constitutes an hope, a springboard for creating future sustainable opportunities for these vulnerable beings.

Each year, Keoogo provides juvenile mothers with warmth and comfortable location. The activities set up allow to offer them medical treatment, psychological support, school support as well as training.

We bring back smile, friendship and listening to children.

Key Figures :

- Organization of 181 outreach patrols to trace and identify young mothers in difficult situation
- Decrease of children’s respiratory and diarrheal pathologies
- Return of 16 young mothers to the family
Urbanization weakens the mechanisms of traditional social cohesion. The aftermath for the most underprivileged is translated by the exclusion of children in particular.

These children are victims who not only find themselves out of the sight of others, but also outside the Institutions, having lost the community living codes: loss of the family and social bonds, lost of all sense of time, which leaves room for the only survival imperative. This is not irreversible.

The “SAMU Social” with its doctrine and its methods operates against this phenomenon.

Chiffres clés:

- Each year:
  - Hundreds of children withdrawn from streets
  - Hundreds of children reoriented
  - Dozens of children go back to family
The “Urgence Afrique” NGO supports children on educational and health levels

Burkina Faso et Togo

Children of Africa Foundation subsidizes “Urgence Afrique” NGO in the management of two facilities:

- The Health Centre of Hangnigba-Todji of Togo which is particularly dedicated to the follow-up of the village’s children and mothers

- The hut of the toddlers of Niou in Burkina Faso which welcomes children from 4 to 6 years old. Their daytime are marked by lessons and various extracurricular activities with the education facilitators. Children trained at the hut, generally integrate the school of the village with a good school level.

Key Figures:

- At the Health Centre, several hundreds of children and mothers are followed-up each year at the medical level

- At the hut of Niou, 25 students from the kids’ hut have been sponsored for the academic year 2015-2016 in the village’s school and have received school kits
Our other subsidized Centers

**Cameroun**

**Support to HEALTH OF AFRICAN CHILDREN (HAC) association**

The association HAC intervenes in Cameroon to support children with disabilities. To contribute to its action, Children of Africa Foundation, which subsidizes this association has funded in January 2015 the establishment of a kinesitherapy and functional re-education unit.

**The Central African Republic**

**Subsidy and Care for “la Voix du Cœur” Center**

Following the various crisis that occurred in the Central African Republic, the Foundation which subsidizes “la Voix du Cœur” Center, which operates for the well-beings of children living in difficult conditions took charge of the reconstruction of the children’s dormitory.

**Mali**

**The National Catholic Child Bureau (NCCB) - Support to the Mali NCCB**

The Mali-NCCB is an organization involved in the promotion and the protection of children’s rights and dignity. Its aim is to ensure the inclusive growth of all children. The Mali – NCCB commits all its forces to promote children’s dignity and to enforce their rights, too often trampled.

**Gabon**

**The “Arc-en-Ciel” Center**

The foundation supports with a subsidy the “Arc-en-Ciel” Center for the protection of Children

Since 1994, “Arc-en-Ciel” Center works for the implementing of a system of protection of the fundamental right of vulnerable children in Gabon, through practical actions for the eradication of all kind of violence done to children. It contributes to improve the status and the future prospects for children.

- The Childhood House in Bouaké
- Our Lady of Sources in Bouaké
- SAPE NGO in Abobo
- The Religious women of Bondoukou
- ”Arc-en-Ciel NGO” in Odienné
- Pilot village of Dakar in Senegal
